Introduction

AIBA Competitions are increasing every year. Therefore, there is the need to have more International Technical Officials (ITOs) and Supervisors qualified and available to officiate during all AIBA Competitions (AOB, APB, WSB). This program intends to update their knowledge and give guidance to make decisions according to their role.

This is not only a pathway provided by AIBA for the growth of its current ITOs and Supervisors, but also for others within AIBA's boxing family that want to advance and become more involved in AIBA competition.

The Programme is managed by the AIBA HQ (hereinafter referred to as AIBA) in Lausanne, Switzerland. All questions and comments can be forwarded to sport@aiba.org.
